Science Fair Central
Student's Final Check

Did you remember to…

- Include every required category (Hypothesis, Procedure, Materials, etc.)?
- Label every chart, graph and illustration?
- Provide a caption for every photograph?
- Proofread every word on your display board? Twice??

Ask yourself…

Is the type large enough to read from afar? Stand 3 feet away to check.

Are lines straight? Are text blocks and graphics properly aligned? (You can re-do a section by covering mistakes with matching colored paper and pasting new text and graphics over that. This time use a ruler!)

Does the display look overly crowded with information? If so, consider removing some less important items and displaying them creatively on the table instead.

Are there any empty spaces on the board? If your layout looks uneven, consider adding some items to balance it out.

Did you follow all rules and guidelines pertaining to your particular fair?

If you require electricity, have you checked to make sure any plugs or wiring are up to safety codes?

Have you packed a "repair kit" of supplies for any last-minute touch-ups at the fair?
